

TPS E-Safety Update

Feb 25

- Squid game is a Netflix show following a group of adults who compete to win innocent looking playground games, but are killed when eliminated.

- The show is rated **15+**.
- Clips and content from the show have been uploaded to TikTok & Roblox.

- **Some children are recreating these games during playtime.**

- The Northern Ireland Safer Schools App is a brilliant app for parents. This app has a wealth of information and we encourage you to use it. It sends daily safeguarding updates based on trending apps, websites and games. It provides short videos explaining the dangers of some social media platforms e.g. Tik-Tok. Scan the QR code to download.

What can I do?

- Keep a watchful eye on the content your child is viewing.
- Check parental controls are activated and they are using the child profile on Netflix.
- If you see your child copying this content. Have an open chat about how the show is for adults and let them ask questions.
- Remember you have to be 13 to have most social media apps.
